

TOTAL-PROOF FOR iPhone

iPhone

6 / 6s / 6^{PLUS} / 6s^{PLUS} / SE / 7 / 7^{PLUS}

Vofeel's total-proof case keeps your iPhone completely waterproof until 3 meters under water.

Total-Proof® patented technology forms a waterproof seal around the complete edge of the touchscreen.

Every function and feature of your iPhone will work without any problem even into the water, including Touch ID.

Vofeel's **Total-Proof**® also keeps safe your iPhone if it drops from 1.2 meters or less, under water until 3m meters for one hour, in the snow, the beach, the mountain, when you are riding your bicycle, running...

Just wear your Vofeel's protection case and forget worries about your iPhone.

NO MORE WORRIES JUST ENJOY IT

Hot Features

This product has been subjected to national approval testing by the international certification company SGS. The test consists of a crash from 1.2 meters high, 26 times.

It supports the fingerprint identifying thanks to the high quality special membrane. The fingerprint identification's speed is the same as using the phone without the protection case.

The waterproof shell what covers the screen's surface, is produced high optical transparency, keeping the most realistic colors and original brightness.

The sound transferred to the screen film protector by vibrations. Our design uses the seal between the mobile phone's screen and the waterproof film, to produce the vibration. The sound is conducted from the speaker's buzzer to the screen's water-proof film, converting to this one into a vibrational speaker surface.

Don't worry about dust or dirty into the headphone's connector and the charging's connector. Our protection cases have closure caps that will hold their connectors in a sealed when you don't use them.

Take photos and videos inside the water. 360 degree wrap-around protection. Built it with the better materials and our best quality control. You don't need to be worried again about how, when or where, your phone will fall down. Your phone will be always safe.

Patent granted in the entire world. Simple idea, but with a complex technology which can turn the impossible, into possible.

Available in seven colors

- BLACK
- JET BLACK
- BLACK & WHITE
- RED
- BLUE
- SILVER
- GOLD
- ROSE GOLD

Ultra-thin design
